

**HARD HAT SERVICES™**  
Engineering, Construction and Management Solutions

# GROWING Forward

Due to continued growth in its client network, Hard Hat Services has hired three more professionals.

## **David A. Johnson—Director of Business Development—Chicago**

David has more than 20 years of experience in business development, sales and strategic planning with Fortune 500 firms such as AT&T, EDS and Ameritech. His responsibilities will include business and market development, strategic alliances and direct sales. David most recently worked for Service Master Corp. He holds a B.A. from the State University of New York at Albany and an M.B.A. from the Kellogg Graduate School of Management at Northwestern University.

## **Robert A. Adams, P.E.—Senior Project Manager—Chicago**

Rob has more than 12 years of design and management experience in water/wastewater, remediation, storm water and landfill projects, most recently with STS Consultants, Ltd. He will be working on existing projects, as well as helping to develop new business opportunities. Rob graduated from the Illinois Institute of Technology and is a licensed professional engineer in Illinois and Indiana.

## **Thomas C. Wells, P.E.—Senior Project Engineer — Chesterton, Indiana**

Tom has more than 30 years of experience, with an emphasis on geotechnical/environmental computer-aided data management, analysis and software development. For the past ten years, he was an independent consultant, serving primarily Locust Technologies, Envirocon, Inc. and Harrington Engineering and Construction. Tom graduated from Michigan State University with a B.S. and M.S. in Civil Engineering and is a licensed professional engineer in Michigan.

Founded in 2000, Hard Hat Services is a full-service general contractor and licensed engineering firm, offering a wide range of management, construction and engineering services. The company's growth has been fueled by its extensive experience in the engineering and construction fields, as well as cost-effective, reliable solutions for industrial clients.
